

# PETER GARRETT

**SUMMARY OF CAREER HIGHLIGHTS:** One highlight is founding my own consulting business (Dialogue Associates) and working with executives of multinational companies for more than a decade. Another is farming for a year and living with my family in a mud rondavel on a remote farm in South Africa.

**SKILLS, KNOWLEDGE AND EXPERIENCE:** I have the knowledge and skills, based on experience, to design system-wide dialogic interventions, train staff to deliver them, run key interventions and develop the processes and relationships to sustain them. I am an architect, consultant, coach, trainer, convenor and facilitator, particularly in the field of Dialogue, in both corrections and commercial organisations.

**YOUR REASONS FOR BECOMING INVOLVED IN PRISON DIALOGUE:** I am a founding member of Prison Dialogue which I have always seen as a container for dialogic skills, knowledge, experience and intellectual property, and a rallying point for those who care about addressing the pervasive fragmentation in our society and culture.

**WHAT YOU BELIEVE YOU BRING TO PRISON DIALOGUE:** I bring vision and purpose to Prison Dialogue because I laid the foundation stones in alignment with the work of David Bohm and others who understand the nature of participation and fragmentation.

**WHAT YOU HOPE PRISON DIALOGUE MIGHT ACHIEVE:** I am committed to Prison Dialogue shifting Corrections internationally by inspiring and informing those working in Criminal Justice to use participatory change and Dialogue to restore health and vitality to our culture and society.
